

E Lynch and Sons Ltd

Position: Site Engineer

We're looking for experienced and established Site Engineer. E Lynch and Son are an ever-growing Civils contractor. We pride ourselves on our brand, and on delivering the highest quality for our clients, and we offer the support and resources needed to ensure that our team of professionals reach their full potential, and deliver exceptional projects.

Responsibilities that the Site Engineer will have are:

- Providing technical advice to construction crews and subcontractors.
- Supervise staff on site, ensuring that construction packages are completed on time, within budget and aligned with legal and contractual guidelines.
- Ensure all materials are ordered in advance and are available when needed for the job.
- Communicate effectively with Site Manager and Contracts Manager.
- Coordinate tasks in advance for the groundworks team and manage site operations to ensure good time management.
- Help avoid mistakes by identifying design flaws and developing solutions during the project.
- Ensure compliance with health and safety regulations.
- Keep an up-to-date record of the ongoings of the site.

Desirable/Essential criteria:

- Hold a degree in civil, construction, structural or building engineering.
- Have experience in using project management software for collaboration and task management.
- Hold a full UK/Irish driving license.
